It is the most advanced fiduciary training available, and is attended by the industry's top fiduciary practitioners. The symposium is divided into three parts. 1. Fiduciary philosophy. 2. How to win new business by learning unique skills that enhance trust with plan sponsors and participants. 3. How to service those clients in the capacity of a professional independent fiduciary.

Participants in the symposium will receive two days of training from the nation's leading independent fiduciary, Matthew D. Hutcheson as well as hearing from key note speaker, Jeffrey D. Mamorsky, one of the drafters of the ERISA law and subsequent governmental regulations there under.

What People Are Saying About Matthew D. Hutcheson and the Independent Fiduciary Symposium

- "Yesterday I had the opportunity to listen to Matthew Hutcheson give a two hour presentation. This is the second time in six months that I have heard him speak. Let me say that there is no question in my mind that Matthew is the preeminent 401(k) and retirement plan leader in the United States. Matthew exemplifies what Jim Collins, in his book "Good to Great" refers to as level five leadership. His ability to convey the most complex matters to an audience of plan sponsors and participants in such a way that kept their intense focus attention and leaving them feeling uplifted and entertained at the same time is simply incredible. I genuinely wish all of you could have been there to see it.

His message is inspiring, uplifting, and educational. It is no wonder some participants traveled great distances for the opportunity to hear him speak. I have already been told by an attendee that they retained and took more away from Matt's presentation than any other seminar on the topic. If you have not had an opportunity to listen to him during a presentation, it would be worth going out of your way to do so."

- "I want to take a moment to thank you for organizing and putting on an excellent conference. Upon reflection, I see it (as you do) as the first step towards creating a movement that will change the way retirement plans are eventually handled in this country. From our perspective this was the most relevant conference we have ever attended or participated in."
